## Professional Summary

Frontend Engineer with 3 years of experience building responsive, high-performance web applications using React, Next.js, NodeJS and TypeScript. Proven track record of improving user experience, performance, and maintainability. Strong collaborator with a focus on clean architecture and scalable component systems.

## Experience

### Frontend Engineer (Contract)

Influx AI Nov, 2024 – March 2025

- Challenge: Enhance a dual-interface SaaS platform under strict performance and UI/UX goals.
- Action: Built admin and customer-facing dashboards using Next.js, Tailwind, and Redux Toolkit
- Result: Reduced support requests by 35%, improved feature delivery speed by 22%, and increased checkout conversion by 18%.

### Software Engineer (Contract)

Optimus AI Nov, 2024 – March, 2025

- Challenge: Enhance a dual-interface SaaS platform under strict performance and UI/UX goals.
- Action: Built admin and customer-facing dashboards using Next.js, Tailwind, and Redux Toolkit
- Result: Reduced support requests by 35%, improved feature delivery speed by 22%, and increased checkout conversion by 18%

### Frontend Engineer (Founding Team)

Auritrack Aug, 2024 – Dec 2024

- Challenge: Build an MVP from scratch with a fast turnaround and limited resources.
- Action: Led frontend architecture using React, React Query, Redux, and Tailwind CSS; implemented SEO best practices, accessibility, and component reusability.
- Result: Launched MVP in 6 weeks; improved initial organic search ranking and accelerated user onboarding by 40%

### Junior Frontend Developer

The Shawn Exchange Aug, 2023 – Jul 2024

- Challenge: Outdated customer and admin dashboards leading to user frustration.
- Action: Rebuilt interfaces using React, TypeScript, and Recoil; optimized image and file storage with AWS S3.
- Result: Boosted customer satisfaction scores by 25% and reduced load times by 24% as measured by PageSpeed Insights.
